

World-class Children's Healthcare From Home

Your family's health doesn't stop being a priority when leaving the house is a challenge. For your convenience and safety, UChicago Medicine Comer Children's offers secure and easy-to-conduct virtual visits by video or phone for most of your kids' healthcare needs — including primary care and specialty care for allergies, asthma, anemias, concussions, heart conditions, nutrition, seizures, stomach aches, and surgery consultation. Additionally, video visits are now covered by most insurance plans.
